Read a Book – Change a Life

Do you support a school community that values respect, tolerance, peaceful conflict resolution, and friendship? Do you want students to learn how to safely respond to bully behavior, and help their friends do the same?

Project Cornerstone Asset Building Champions (ABCs) are caring adults who read books and lead discussions with students in class. These books help build a school-wide language for handling these issues, and empower students to make good choices. What's more, ABC readers connect with students and make a difference in their lives all year long.

At De Vargas, we are looking for caring parents and adult volunteers who want to engage with students once a month in class.

For more information about this rewarding volunteer opportunity, please contact us at the following email.

ABCReaderDV@gmail.com

We look forward to having you join our volunteer team!

Best regards,

Marie and Milly
